# What we do? Report – legal needs for IT tools

- 25 June 2018 – publication of the report prepared by the Foundation together with Centre for Innovation and Technology Transfer Management of Warsaw University of Technology

- The aim of the report was to provide the IT industry with knowledge about the real problems of lawyers and their expectations regarding technology tools

- The report included:
  - The workload of lawyers in their perspective
  - The attitude of lawyers to automation and digitalisation
  - Description of used IT solutions

# What we do? Catalogue of Polish legaltech tools

- In April 2019 the Foundation initiated the catalogue of Polish legaltech tools

- The catalogue is hosted on the Foundation's webpage: https://legaltechpolska.pl/katalog-legaltech-polska/

- The catalogue's idea is to create the landscape of legaltech solutions available on a Polish market

- The entry to catalogue is free of charge

- As of end of August 2019 the catalogue includes 27 solutions.

# What we do? Contest for legal chatbot

- In September 2019 the Foundation organised the contest for legal chatbot

- Legal chatbot is a software that conducts a conversation via textual methods and may provide the information based on the inputs from the user

- The aim of the contest is to encourage lawyers to identify areas of their legal practice that can be automated

- The winners shall be announced in November 2019

- The partner of the contest is publishing house C.H. Beck
